

**1 1/8" SQUARE UNIVERSAL
TILT SWITCH
TSS235**

FEATURES:

- * 1 1/8" Square Universal Tilt Switch
- * 12" Leads
- * Epoxy sealed for maximum resistance to harsh environment
- * Colors: Black
- * Tape Mounting
- * E.O.L. Resistors and Supervisory Loops Available

The **Flair Tilt Switch, P/N TSS235**, is a rugged security device for protecting many objects from being moved or tampered. With the case vertical and wires up, as shown above, the circuit is closed. Tilting the switch in any direction more than 35 Degrees will open the circuit. Use tape provided to mount Switch to any vertical or horizontal surface

APPLICATIONS: Monitors, Computers, Art, HVAC, Doors, Gates, Containers, Equipment

Part Number	Loop Type	Electrical Configuration	Operating Angle (Degrees)	Maximum Initial Contact Resistance (Ohm)	Maximum Switching Voltage (VDC)	Maximum Switching Current (mA)
TSS235	Closed	N/C	35 +/- 3	5	5	10
