

**2 1/2" LONG SURFACE MOUNT  
TILT SWITCH  
TSS2410**

**FEATURES:**

- \* 2 1/2" Long Surface Mount Tilt Switch
- \* 36" Side Leads
- \* Epoxy sealed for maximum resistance to harsh environment
- \* Colors: White, Brown and Gray
- \* Screw or Tape Mounting
- \* E.O.L. Resistors and Supervisory Loops Available

**TILT SWITCH**

The **Flair Tilt Switch, P/N TSS2410**, is a rugged security device for protecting many objects from being moved or tampered. With the switch horizontal, as shown above, tilting the switch up around the wires will close the circuit. Tilting the switch down will open the circuit. Switch may be mounted bottom or side with screws or tape.

**APPLICATIONS:** Monitors, Computers, Art, HVAC, Doors, Gates, Containers, Equipment

Part Number	Loop Type	Electrical Configuration	Operating Angle (Degrees)	Maximum Initial Contact Resistance (mOhm)	Maximum Switching Voltage	Maximum Switching Current (A)
TSS2410	Closed	N/C	10 +/- 3	100	30 VDC 240 VAC	0.15 0.05
